

We seek to:

- Promote the evaluation of fatherhood programs.
- Expand the number of researchers and practitioners collaborating to evaluate these programs.
- Disseminate information that leads to effective fatherhood practice and evaluation research.

New Grant Funding

The FRPN has issued our third request for proposals to evaluate fatherhood programs and services. This RFP is intended to support exploratory and descriptive research that will provide insights into previously unstudied or understudied areas.

Our Focus

Responsible fatherhood: Programs or interventions to increase positive father engagement with children.

Economic security: Programs or interventions to increase father's ability to support themselves and their children and families
