QUESTION: Why would anyone wishing a website to be read and understood, use such faded blue and light-gray font almost completely absent any graphics? Low-cost? This person has accepted (and managed to get into) state-level agencies in several US states, specifically Ohio and Florida, for the spread of his "Safe and Together™" model as part of child welfare training re: DV, and with DV networks (OVDN.org in Ohio), and non-entities (until they belatedly filed such as BWJP participating in the promotions.

ICIDVP

- Safe and Together Model of Suite of Tools and Interventions
- Domestic Violence-Informed Child Welfare Practice
 - Domestic Violence-Informed Continuum (revised)

ICIDVP

The International Center for Innovation in Domestic Violence Practice (ICIDVP) is a project of David Mandel & Associates design to promote emerging trends, best practices and innovations in domestic violence practice.

Mission

The ICIDVP's mission is to research, incubate, develop and implement innovative ideas and sustainable practices to reduce and end domestic violence and child maltreatment. ICIDVP is committed to advancing domestic violence practice at the individual, organizational and community level through partnerships with researchers, practitioners and policy makers. We are devoted to support our partners; from individual practitioners, community agencies and collaborations to government organizations; achieve their mission to improve the lives of children and families.

The foundations of ICIDVP Practice Innovations

- A powerful and clear formulation of how domestic violence perpetrators harm children and families
- Top to bottom transformational expertise
- Commitment to partnership and collaboration
- Translation of domestic violence expertise and knowledge for child focused systems and professions
- A strengths based, trauma informed approach to system and practitioner growth, and improved family outcomes

This is what "black font" looks like. Is there some reluctance to admit what he's actually doing? (The firm lists only 3 leaders on main site, remains named after its founder)? Sustaining fields of practice, but making sure to trademark proprietary practices and ride the surge? What ever happened to the concept of STOPPING (ENDING!) domestic violence, or violence against women? (I write as a survivor of DV~AND the courts~and investigative blogger, AND mother).

NOTICE: Annotations © 2017 Anna Victoria Englund. I blog in the public interest, particularly re: court-connected and court-ordered services and organizations who provide, and promote the expansion of that category.
