REGIONALIZED REFORM ATTEMPTS but NW = \$0 assets?

MI most current return, still showing signs of life (though not much)

SouthEast fizzled after YE 2013?

TEXAS CES STILL KICKIN' it @ \$231.9K (note, gross assets may be lower than Revs that yr).

True to pattern, a sponsoring entity encourages formation of entities named after it, whether or not they are "Related" entities or financially interdependent can only be seen by looking at their returns. I see that the CES Rhode Island is showing YE2015 return, which for them is FY2014 only. 2015's tax returns not yet posted. Also, because this is a screenprint (not print to pdf) those links aren't active.
