This detail page follows after a statement in (the final year of Walter Annenberg's life; he died Oct. 2002) re: Amendment to Bylaws to appoint Advisory Committee, until his death (but with a cash limit on recommendations). I DNK if that has anything to do with why more detail was provided on this Challenge recipient than the others (at least in the Forms 990PF I viewed)

Screenshot is partial page only: See related Tax Return (upper left corner) for the rest of this page and more info.

This entity was (is?) functioning as a pass-through or redistribution (the year after receipt of funds) entity, by (it says below) agreement with the Annenberg Foundation.
