

CALIFORNIA HEALTH IN ALL POLICIES TASK FORCE

The California Health in All Policies (HiAP) Task Force was created by Executive Order S-04-10 in 2010 because the health and well-being of Californians is impacted by the policies and practices of many agencies and departments, not just health services and public health. The HiAP Task Force is housed under the Strategic Growth Council (SGC), and brings together 22 state agencies, departments, and offices, with a common goal of working together to support a healthier and more sustainable California. Health in All Policies (HiAP) is a collaborative approach to improving the health of all people by incorporating health, equity, and sustainability considerations into decision-making across sectors and policy areas. Five Key Elements of Health in All Policies provide a filter for identifying opportunities of potentially greatest impact for the HiAP Task Force by considering if the idea will:

- Promote health, equity, and sustainability
- Support intersectoral collaboration
- Benefit multiple partners
- Engage stakeholders
- Create structural or procedural change

Squiggly blue line — nice to know that HiAP Task Force is looking for where to make the greatest impact, **ALTHOUGH** it was created not by popular consent, informed debate, or normal legislative process, but within the Executive Sector of State Gov't., and even there, **BY EXECUTIVE ORDER,**

<http://www.saferoutespartnership.org/who-we-are/donate-online>. [EIN# 462694434 referenced but — by now we should know from which types of (progressive esp.) entities to expect this —NO financial posted on the website. Org. is in downtown Oakland, CA

and for the ultimate purpose of structural or procedural change “by Task Force — but with “Partners and Stakeholders”

Could've linked to “Strategic Growth Council” (Cabinet-level committee legislated in 2008 by SB732, its annual reports: <http://www.sgc.ca.gov/About-Us/annual-reports.html>, but this website did not.

SAFE ROUTES TO SCHOOL NATIONAL PARTNERSHIP

The Safe Routes to School National Partnership is a nonprofit organization that improves quality of life for kids and communities by promoting healthy living, safe infrastructure, and physical activity, starting with bicycling and walking to school and beyond. We advance policy change; catalyze support with a network of more than 750 partner organizations, as well as schools, policy makers, and grassroots supporters; and we share our deep expertise at national, state and local levels with those helping propel our mission.

This paragraph could've easily included a year of incorporation and a legal domicile, but didn't.
