About ConnectEd

THIS IS A 501©3 with a rather long business name- ALL the words in the logo (top left) (but, missing a ":",") are in the business name. Neither the logo nor this phrase communicates that very well, leaving those who might search the Secretary of State database to wade through MANY similarly-named entities.

(See "ConnectEd.org" for a cleaner copy. Any annotations in maroon (and the yellow highlight comments) are added.)
