Final Master Plan Progress

DeJong-Richter has been hired to perform a Long Range Facility Master Plan for the Beverly Hills Unified School District. Like many other school districts in California, BHUSD faces some of the same issues of aging facilities and shifting demographics. The plan will include the development of Educational Framework, Educational Specifications, Educational Adequacy Assessments, Enrollment Projections, GIS Analysis, and Community Engagement.

Please visit the DeJong-Richter/BHUSD Strategic and Long Range Facility Master Plan Webpage for information on the Facility Master Planning Process:
